Customs Cheat Sheet 1 - US import basics

General information only. Your licensed customs broker confirms the filing for your goods.

ISF 10+2 - the 10 importer elements

1. Seller - name and address
2. Buyer - name and address
3. Importer of record number
4. Consignee number
5. Manufacturer (or supplier) - name and address
6. Ship-to party - name and address
7. Country of origin
8. HTSUS number - 6-digit minimum
9. Container stuffing location
10. Consolidator (stuffer) - name and address

The carrier supplies the 2 remaining elements: the vessel stow plan and container status messages.

The one deadline to remember

ISF is due no later than 24 hours before the cargo is laden (loaded) on the vessel at the origin port. Late, incomplete or inaccurate filings can draw CBP penalties and holds - gather the 10 elements when you book, not when the ship sails.

Core documents for entry

- Commercial invoice
- Packing list
- Bill of lading (house and/or master)
- Booking confirmation
- Arrival notice
- Certificates for regulated goods, where they apply (for example origin, health or product certificates)

From booking to delivery

1. Enquiry and quotation
2. Booking placed with the carrier
3. Documents gathered; ISF data sent
4. ISF filed - 24 hours before lading
5. Vessel sails; bill of lading issued
6. Arrival notice at the US gateway
7. Entry filed by the importer or their licensed customs broker
8. CBP review - release, or an exam / hold
9. Duties and fees settled; cargo released
10. Delivery to warehouse or door

Plain-words glossary

- **HTS code** - the number that classifies your goods for US customs.
- **Duty** - the tax US customs charges on imported goods, based on their classification and origin.
- **Incoterms** - the agreed rules that say who arranges and pays for each part of the journey, and who carries the risk.
- **Bond** - the customs bond that guarantees duties and compliance; ISF and entry filings need an active bond.
- **ISF** - Importer Security Filing, the advance cargo data filed with CBP for ocean imports.
- **Entry** - the formal customs filing that clears goods into US commerce.

Customs Cheat Sheet 2 - Terms, boxes and measures

Quick reference. Confirm the exact term and equipment with your quotation and broker.

Incoterms 2020 - quick table

Term	Who arranges main freight?	Where risk passes	In one line
EXW Ex Works	Buyer	At seller's premises	Seller makes goods available; buyer does almost everything.
FOB Free On Board	Buyer	On board the vessel at origin	Seller delivers goods onto the ship; buyer runs the ocean leg.
CIF Cost, Insurance & Freight	Seller	On board at origin, though seller pays freight to destination port	Seller pays freight and minimum insurance to the named US port.
DAP Delivered At Place	Seller	At the named destination, ready for unloading	Seller brings goods to your place; import clearance and duty stay with the buyer.
DDP Delivered Duty Paid	Seller	At the named destination	Seller handles almost everything, including import duty - check who is importer of record.

Containers - approximate guide

Type	Internal size (L x W x H, approx.)	Capacity	Max payload (approx.)
20GP - 20 ft general purpose	5.90 m x 2.35 m x 2.39 m	~33 CBM	~28,000 kg
40GP - 40 ft general purpose	12.03 m x 2.35 m x 2.39 m	~67 CBM	~26,500 kg
40HC - 40 ft high cube	12.03 m x 2.35 m x 2.69 m	~76 CBM	~26,500 kg

Figures are approximate and vary by carrier and container. Usable space is less than the full internal volume - pack to about 85-90% when you estimate.

Work out CBM

CBM = length (m) x width (m) x height (m) x number of pieces

Example: a carton 0.60 x 0.40 x 0.40 m = 0.096 CBM. One hundred cartons = 9.6 CBM.

Common abbreviations

- **FCL** - full container load **LCL** - less than container load (shared)
- **TEU** - twenty-foot equivalent unit
- **B/L** - bill of lading **ETD** - estimated departure **ETA** - estimated arrival
- **Demurrage** - charge for a container kept at the terminal beyond free time
- **Detention** - charge for a container kept outside the terminal beyond free time
